

With your support many children  
are going to have access to education.

## Give those children a future!

Only permanent, sustainable and direct help will lead to an improvement in the lives of the Nepali people. Every Euro/US \$ you donate will solely be used for our projects. Small amounts can already have significant effect.

## Support us with your donation.

- Payment of school fees
- Outfit with school uniforms
- Financing of teaching materials
- Equipment for school and kindergarten
- Renovation of school and kindergarten
- Establishing accommodation facilities for students living far away in remote areas

We are a non-profit organization  
approved by the German authorities  
and entitled to issue a donation receipt.

## Education – way out of poverty

Poverty impedes education, education impedes poverty.

Only when children can read, write and calculate,  
It gives them a chance of having a self-determined future.

In order to provide future prospects  
for children and young people  
the main goal of our association is to support education.

Access to education is especially hindered in rural areas, caused by economic hardship of many families. In addition the still distinct caste system fosters discrimination and exclusion of lower classes. Many children, who do not attend school, have to work in the fields and support their families at home.

Routes in the Himalaya are strenuous, stony and long; as well as the routes to education.

Nepal is one of the poorest countries of the world. The government is financially not able to properly maintain its schools.

# The school of Samundratar – 400 children and young people from kindergarten to 12th grade.

To support children in need sustainably during their school-days, our association aids more than 70 boys and girls at the moment independent of their gender.

For example: 60 Euro per year can cover the costs for school fees, school uniform and teaching materials of a student in 11th or 12th grade.

## Rukmani Higher Secondary School

Toys for the kindergarten, school uniforms and teaching materials like computers etc. for the school/students.
